Data Source and Definitions

The data presented were developed from machine readable data files provided by the U.S. Bureau of Labor Statistics (BLS) Quarterly Census of Employment and Wages (QCEW) program. The source data files were produced by BLS from information transmitted to BLS by Ohio as part of the QCEW program. The summary data are for Private Ownership records only. The BLS [QCEW Home Page](#) contains detailed information on concepts and definitions used in the QCEW program. BLS standards to protect respondent confidentiality sometimes preclude reporting QCEW data where a single firm dominates an area or industry. Larger sub-state areas, such as economic development regions, may trigger confidentiality flags due to the rollup of confidential county data.

Number of Establishments

The Average Number of Establishments reported for each of the 4 quarters of the year.

All Employees

The 12-Month Average Employment reported for the year.

Total Wages (in thousands)

The summation of the Total Wages paid for all 4 quarters of the year, displayed in thousands of dollars.

Average Annual Pay

The quotient that results from dividing Total Annual Wages by Annual Average Employment.
