

Business Opportunities in Indonesia Webinar

February 9, 2012; 9:00 – 10:15am EST

Indonesia, a thriving democracy with significant regional autonomy, is located on the world's major trade routes and has extensive natural resources, presenting great opportunities for U.S. Businesses. Important opportunities exist in mining, energy, agribusiness equipment and services. The aircraft market favors U.S. products. Gain knowledge about the export opportunities and best prospects in the market. Meet key contacts at the U.S. Commercial Service Offices in Indonesia. This webinar is part of Trade Winds Asia 2012, an official U.S. Department of Commerce multi-sector trade mission to be held in Singapore from May 14-22, 2012, focusing on how to successfully do business throughout the Asia region. The cost is \$35 per participant.
