Speaker Biography

Mr. Kevin Grimes is a Compliance Consultant with CFO Leasing, Inc. Grimes has more than 10 years of accounting experience and specializes in DCAA compliance and accounting system implementations and migrations. The program is designed to give businesses and accountants the knowledge they need to design or implement accounting systems that will be found acceptable by the federal government with an emphasis on Defense Contract Audit Agency (DCAA) compliance.

Many federal contract awards are contingent upon finding that a contractor's accounting system is sound. This includes having specific written accounting policies and an accounting system that can perform certain cost, timekeeping and billing functions. Agencies conduct unique "financial health" audits prior to awarding some contracts.
