

## **Capsa Solutions Bringing 100 Jobs to Canal Pointe**

One hundred new jobs are coming to the Canal Pointe Industry and Commerce Park thanks to expanded manufacturing operations at Capsa Solutions. Capsa Solutions plans to expand and move its operations from 4800 Hilton Corporate Drive on the East Side of Columbus to 120,000 square feet of space in the Canal Pointe Industry and Commerce Center.

Canal Winchester Development Director Lucas Haire said Capsa Solutions, a company based in Portland, Ore., specializes in products for the healthcare industry, and is leasing 120,000 square feet of space at 8170 Dove Parkway. The company has invested about \$500,000 in upgrades.

Haire added, "Capsa Solutions will have administrative offices, production and warehouse space as part of their operations here."

Haire said the firm will employ more than 100 people in a variety of production, design and administrative roles at the new location.

"In an effort to serve our customers better, we have invested in this relocation and now have a greater capacity to manufacture and manage our product solutions for healthcare," Capsa Solutions CEO Andrew Sherrill said. "We're very excited about our current growth rate and future growth plans."

According to Sherrill, the Canal Winchester facility will provide "consolidated and expanded warehousing and logistics management, streamlined assembly and order-fulfillment operations and expanded capacity for growth in production operations and management teams."

The city did not negotiate any specific tax incentives with the company, Haire said.

"This company is a great addition to Canal Pointe and the Fairfield 33 corridor, and their addition will further strengthen the diverse manufacturing environment in our city," Haire added. "We look forward to assisting the company with their move and to connecting them with resources that will allow them to continue to grow and thrive as a member of our business community."
