She informed each representative of their entity to provide feedback on what data they collect and don't collect, and how useful it is or would be. She concluded by saying she will inform MORPC that she will work with the representatives and get MORPC the surveys as soon as possible.

Greg Butcher posed the question that once we collect this sidewalk inventory, what is the next step?

Ms. Mattei answered that it can be utilized to support grant applications, planning activities, and where to make future connections.

Ms. Mattei answered that the candidate selection window ends in September so she would assume a couple months.

Ms. Portier suggested a project that would provide access to get from the south side to the north side of 70.
