

Fairfield County Utilities Department

Water, Drainage and Sewer Regulations & Construction and Material Specifications

July 30, 2002

Resolution 02-07.30.d

IN THE MATTER OF

**The Water, Drainage and Sewer Regulations and
the Construction and Material Specifications
for Fairfield County**

WHEREAS: Fairfield County has established the Fairfield County Sewer District per Resolution 99-05.11.f and has constructed water and wastewater systems to serve the Fairfield County Sewer District, and

WHEREAS: Ohio Revised Code Chapters 6103 and 6117 grant the Board of Fairfield County Commissioners authority to adopt regulations, specifications and requirements for the use, planning, design and construction of water, drainage/storm water and sanitary systems in County Sewer Districts, and

WHEREAS: the Water, Drainage and Sewer Regulations adopted by the Board of Fairfield County Commissioners on November 22, 1983 and amended on July 1, 1986 need to be updated to meet current standards, regulations and practices, and

WHEREAS: the Construction and Material Specifications adopted by the Board of Fairfield County Commissioners on September 16, 1986 need to be updated to meet current standards, construction specifications and practices, and

WHEREAS: the requirements of the Sewer Use Ordinance adopted by Resolution 89-12.07.d need to be updated and incorporated into the Water, Drainage and Sewer Regulations, and

WHEREAS: the Fairfield County Utilities Department has upgraded its pump stations to current standards and desires that all future pump stations proposed by developers, engineers and contractors meet the same standards for consistency, reliability and efficiency, in accordance with the Wastewater Pump Station Specifications and Requirements included with the Regulations and Specifications, and

WHEREAS: the Fairfield County Utilities Department has prepared the attached updated Water, Drainage and Sewer Regulations, and the Construction and Material Specifications, including the General Notes, Standard Drawings, Wastewater Pump Station Specifications and Requirements, and Site Evaluation, Design and Operation Requirements for Land Application Wastewater Treatment Systems, to meet current standards, regulatory requirements and general practices, and recommend the approval thereof, **Now Therefore**

BE IT RESOLVED by the Board of County Commissioners, County of Fairfield, State of Ohio

- Section 1:** That the Board of Commissioners of Fairfield County hereby approves and adopts the Water, Drainage and Sewer Regulations, and the Construction and Material Specifications, including the General Notes, Standard Drawings, Wastewater Pump Station Specifications and Requirements, and Site Evaluation, Design and Operation Requirements for Land Application Wastewater Treatment Systems, attached hereto and incorporated herein, which shall take effect immediately.
- Section 2:** That the Regulations and Specifications shall be followed by all users, developers, engineers, contractors, and others in using, planning, designing and constructing Water, Drainage and Sewer Facilities in Fairfield County, in accordance with Chapters 6103 and 6117 of the Ohio Revised Code.
- Section 3:** That all prior Water, Drainage and Sewer Use Resolutions and Regulations, and Construction and Material Specifications, in conflict with this Resolution and the attached Regulations and Specifications are hereby repealed, and the invalidity of a section, clause, sentence, or provision of this Resolution or the Regulations and Specifications shall not affect the validity of any other part of this Resolution or the Regulations and Specifications, which can be given effect without such invalid part or parts.
- Section 4:** That the Clerk of the Board is directed to file one copy of this Resolution and the attached Regulations and Specifications in the Board's file and return one copy to the Fairfield County Sanitary Engineer.
- Section 5:** That the Fairfield County Sanitary Engineer is directed to send one copy of this Resolution and the attached Regulations and Specifications to the Ohio EPA for their files.
- Section 6:** That the Fairfield County Sanitary Engineer is directed to administer and enforce the requirements and provisions of the Water, Drainage and Sewer Regulations, and the Construction and Material Specifications for all facilities and developments within the County or tributary to the County systems either currently or potentially in the future.

Motion by JUDITH SHUPE Seconded by JON MYERS
