Update – Human Resources

Deputy County Administrator, Jeffrey Porter, started by introducing the HR team and spoke about the new dedicated space that is being renovated for the employee clinic. Mr. Porter continued by speaking about employee verification through Equifax, the electronic I-9 process, and small updates to the Personnel Policy Manual that will be presented at the March 7th meeting. He stated that the new Stop Loss Pool has received the initial deposit and that he and NFP are working with the actuary to determine the annual payment into the fund. He also stated there will be a risk committee to work with the stop loss pool.

Commissioner Davis asked about the location of the temporary employee clinic and if we will be able to see possible stop loss exposure.

Commissioner Levacy provided the address for the temporary employee clinic and commended a few individuals who were creating motivation for others by walking great distances.

Mr. Porter stated he receives notice for every high dollar claim over \$25,000. He also spoke about the Virgin Pulse walking incentives that were part of a wellness initiative in November/December of 2022, and February/March 2023. He stated that participation points are received even if you do not qualify for one of the incentives and explained that those points translate to HRA dollars.

Commissioner Davis asked if the wellness points automatically transfer to HRA dollars.

Mr. Porter explained the end-of-year process and stated that the new biometric screening process will be an easier process. He also stated that employees can receive a free physical at the wellness clinic. County Administration Update

Week in Review

ARP Update

County Administrator, Aundrea Cordle, stated that from the \$30,606,902 received as the first and second tranche of fiscal recovery funds, \$22.2M has been appropriated, \$11.5M expended, and \$4.2M encumbered or obligated.

Transit Governance Structure Evaluation Study

Ms. Cordle provided that the contract with RLS and Associates is currently under review by the Prosecutor's office and that she anticipates administrative approval will take place this week.

Commissioner Davis explained the RLS contract process.

Property and Income Tax Reforms Included in House Bill 1

Ms. Cordle stated that House Bill (HB) 1 was introduced into the House last week and is a top priority for the majority caucus and is intended to be a steppingstone to the elimination of the state income tax; and makes several changes to property taxes and state income tax. She added CCAO has concerns about the impact of the bill on Ohio's property tax system and is engaging with the bill's sponsors and interested parties to understand HB1's full impact.

Ms. Cordle continued by stating that the bill makes small changes to the state's income tax brackets for Tax Year 2022, then in Tax Year 2023 and thereafter eliminates all but one bracket. She added that under the bill, beginning in Tax Year 2023, Ohioans will pay no income tax on their first \$26,050 of income and then pay the sum of \$360.69 plus 2.75% of their taxable income above \$26,050.

The County Administrator added that House Bill 1 also makes several changes to Ohio's property tax system. She stated that first, the bill eliminates the Class 1 (Residential and Agricultural) 10% property tax rollback and changes the owner-occupied 2.5% credit to a flat \$125 per year, and that the state currently reimburses taxing districts for both credits. She also stated this rollback was put in place when Ohio first instituted an income tax and that the rollback was modified in 2013 so that it would not apply to new or replacement levies, and that it is expected that these changes will reduce state expenditures by approximately \$1.2 billion per year.

Regular Meeting #7 - 2023
Fairfield County Commissioners' Office
February 21, 2023

Ms. Cordle stated that secondly, the bill modifies the homestead credit that is available to homeowners who are disabled or age 65 and over and have incomes lower than the statutory threshold, and that the bill indexes the current \$25,000 valuation exemption for inflation and creates an enhanced valuation exemption of \$50,000 for individuals who have owned their homes for at least 20 years.

Thirdly, continued the Administrator, the bill changes the statewide valuation assessment rate from 35% to 31.5% for the first tax year the bill is effective and then lowers the assessment rate for inflation in subsequent years. She added the assessment rate is capped at 31.5% and that this change is intended to reduce or eliminate the financial impact on property owners by eliminating the residential credit.

Ms. Cordle added the temporary law language in the bill states that it is the intent of the General Assembly to appropriate funds in fiscal years 2024 and 2025 to local governments impacted by these changes and that there are no specifics on the amount of assistance or whether this aid will continue beyond the biennium. She also added that the bill was referred to the House Ways and Means Committee and that the Legislative Service Commission has not yet produced an analysis or fiscal note for the bill. Ms. Cordle stated the County Auditors Association of Ohio (CAAO) is working to understand the full impact of this far reaching and complicated proposal.

County Auditor, Dr. Carri Brown, added that there will be a cap on how much one will pay and that you will likely see more on the ballot since entities will not have the same revenues. She also added that it will be more difficult for rural areas that are not growing.

Commissioner Levacy stated his concern regarding indefinitely making schools financially whole.

Force account amendments offered for consideration in Transportation Budget

Ms. Cordle provided Ohio law allows a county engineer to use county employees and equipment for certain small construction projects and repairs to roads and bridges and that this authority is limited to road projects costing less than \$30,000/mile and bridge projects that cost less than \$100,000. She stated the "force account" limits have scarcely been adjusted in the past 20 years and that in response to the advocacy of county commissioners and engineers on this issue, three House members have sponsored several amendments to the transportation budget to address increasing the force account limits.

County Engineer, Jeremiah Upp, stated that by law he is required to bid out any job that is at or above the threshold, and cannot allow staff to do the work. He stated there is a desperate fight with the Contractors Association to change the threshold to 300k for bridges and 150k for roads.

There are multiple projects under review in addition to the projects already approved.

The county will be using a community visioning process to inform final decisions and prepare for the second tranche, as well as prepare for broad community goals, beyond the fiscal recovery program. We expect a report for the community strategic plan by the end of 2021. The county will be using the theme of Fairfield Forward for strategic planning. There are two main uses that stand out for Fairfield County's fiscal recovery:

1. Responding to the public health emergency with respect to the COVID19 or its negative economic impacts, including assistance to households, small businesses, and nonprofits, or aid to impacted industries such as tourism, travel, and hospitality.
2. Making necessary investments in water, sewer, or broadband infrastructure.

As we think about the first purpose, we are required to:

- Identify a need or negative impact of the public health emergency,
- Identify how the county investment would specifically address that need, and
- Readily explain how the investment helps the county respond to the disease or the harmful economic consequences of the economic disruption.

Heating Assistance Available through HEAP Winter Crisis Program

The Ohio Department of Development and Lancaster-Fairfield Community Action Agency want to let Ohioans know that assistance is available to help with their heating bills this winter. The Home Energy Assistance Winter Crisis Program helps income-eligible Ohioans pay their heating bills and can assist with fuel tank placement, fuel tank testing, and furnace repair. The program will be open until March 31, 2023.

The Winter Crisis Program assists low-income households that have been disconnected (or have a pending disconnection notice for gas and/or electric), need to establish new service, need to pay to transfer service, have a PIPP default, have 25% (or less) of bulk fuel or wood supply remaining, to help stay warm this winter. This program can also help with furnace repair.

When applying for the program, applicants must provide the following documentation.

- Income verification for the last 30 days (document examples: pay stubs, child support printout, current year Social Security award letter, including disability benefits, public assistance, pension, etc)
- If Self Employed, ledger showing last 12 months earnings and expenses, and most recently filed tax forms and schedules, or most recent IRS Account Transcript.
- If Seasonally Employed, the last 12 months of paystubs are needed or seasonal employment form filled out.
- Social Security cards or birth certificates for all household members, and Social Security numbers for all members of household.
- Most recent gas and electric bills, propane/fuel oil invoice (even if assistance is not needed for both services).
- If disabled, proof of disability
- If zero income, need to know how you have been maintaining your household. (Food stamps, Metropolitan Housing, monetary assistance from someone outside the household, etc)

Ohioans can visit www.energyhelp.ohio.gov to start their application and upload the required documents. If application is completed online, please call 740-777-9055 to schedule a phone appointment. If you do not have access to the internet and/or cannot upload your documentation, you can drop off your documentation at the agency or your documentation can be mailed, faxed, or emailed to the local agency. To schedule a phone interview, please call our automated appointment line @ 740-777-9055.

Eligible households can receive a payment for their main heating source and/or their secondary heating source (electric). Ohioans must have a gross income at or below 175% of the federal poverty guidelines to qualify for assistance.

For more information about the features of the Winter Crisis Program locally and what is needed to apply, contact Lancaster-Fairfield Community Action Agency at 740-653-4146. Additional information can also be found at www.energyhelp.ohio.gov or by calling (800) 282-0880.

NEW FOUNDATION FOUNDED

The Bill and Joyce Hague Foundation was founded in 2021 as a 501c3 nonprofit corporation. The founder, Joyce Hague, recognized the importance of protecting nature and to that end created the Foundation to acquire and restore land. The restoration process involves a review of the likely state of the land before settlement and initiating processes to return the property to as close to that status as practical. This usually involves an intensive effort to control invasive species and the planting of appropriate trees and shrubs. Watershed protection where applicable is also a priority.

Educators are encouraged to work with the Foundation on outdoor classroom events and long term study. The public is welcome to volunteer to assist with the restoration process and to participate in public events. Send inquiries to tmfp@icloud.com.

Vibrant Community Connection

When you make the decision to volunteer, you are choosing to add value to your life and those in your community. It may be to help those around you, connect with your community, or bring fulfillment to your life. Volunteering provides benefits to others but the volunteers themselves also tend to see personal improvements as well.

Ariel decided that she wanted to find a local place to volunteer in her community in order to help make it better and found the Pickerington Public Library. Ariel shares her experience with success in finding her volunteer position.

Ariel stated that she “wanted to give back to the community and noticed that a paying job was not really fitting for me, but knew I wanted to do something.” She decided the Pickerington Public Library would be a good fit for her and filled out an application to volunteer.

“When I emailed about volunteering, I did NOT say to them that I use a wheelchair before the orientation. I was taught by my job training not to bring up your disability before the workforce sees you because it will make them hesitant about you and that’s not right or fair to you.”

Ariel said that the staff of the Pickerington Public Library make her feel welcome and accepted. Her job currently consists of discarding old books and DVDs that the library no longer wants. Ariel is excited to learn more and gain more experience throughout her volunteering.

Community Partnership Corner

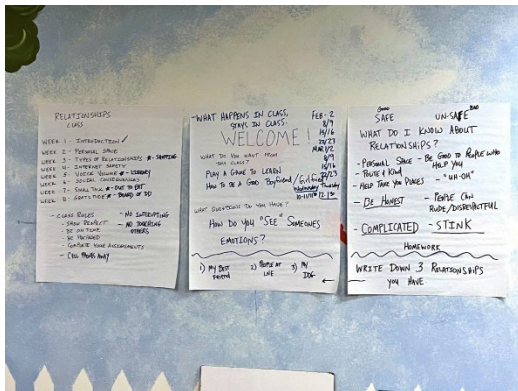

Mentor Academy

The winter session of the Mentor Academy, in partnership with Connexion West, has officially begun. The program for ages 12-18 encourages talking, listening, and forming connections with one another through facilitated conversations in a small group setting. One person leads, and the rest of the tables follow suit and take turns sharing. Through this process, opportunities are opened for each person to be heard and for everyone to grow together. No one is left out and no one is more involved than another. Participants of the program have seen great success. Know someone who might be interested? The next session starts in May on Thursday evenings from 5:30-8:00 pm.

Developing Healthy Relationships

In a partnership with Learning Never Ends, Fairfield DD's Behavior Support Services team is facilitating a course on identifying how to develop healthy relationships and promote steps toward independence. It kicked off at the beginning of February with the first session focusing on the expectations and goals of the course including getting to know each other. Initially the group is focusing on self-

relationship and personal space. These topics brought great discussion. As the group shared things about themselves and current relationships, they began to realize the benefits of building self-esteem and promoting a good sense of self. The course is an elective experience, but one that benefits both the participants and the facilitators in gaining a better understanding of each other.

The group plans to meet in various locations around town to put into practice the new skills learned. Most recently, the group met at L-City Coffee in

downtown Lancaster and were able to take advantage of The Underground; a designated meeting area, graciously offered by staff as space for the group to utilize.

Fairfield DD Feature Department

Each year, the Provider and Community Resource Department looks to develop new ideas to help people feel empowered and thrive in meaningful ways outside of the service system. One of our primary partners in this effort is the local provider network.

To foster a deeper relationship, Provider and Community Resource staff are taking a more individual approach to assist providers get back to supporting people live a life the same as anyone else. We are working together to shift away from the historically shaped norm of social isolation, congregation, and segregation of people with disabilities. Since the current system is not designed to do this, we are working together to be intentional to find innovative ways to move forward. We are asking them to gain vision of where they are today and where they want to be in the future by creating actionable goals.

Currently, the Fairfield Center for DisAbilities and Cerebral Palsy has started the process of shifting organizational practices. Moving away from their traditional approach focused on compliance, health and safety to much higher expectations, aligning the supports related to each person's desired outcome and finding connections in their community. There is now a visible positive energy and unified engagement throughout the entire organization to see how they can have an impact on creating an inclusive community where people not only belong but thrive!

Important changes coming for Ohio Medicaid Members

Once the federal government declares an end to the COVID-19 public health emergency (PHE), Medicaid will resume its normal eligibility review

process. This means that all eligible Medicaid **members will have to renew their Medicaid coverage** or risk losing it.

Department of
Medicaid

While some renewals can be completed without a need to contact the member, some renewals **will require members to respond to mail** from their County Department of Job and Family Services (CDJFS) regarding their Medicaid eligibility.

To prepare for this process, Medicaid members are encouraged to: Update their contact information with their CDJFS. When it's time to renew, or if Medicaid needs more information to continue a member's coverage, the CDJFS sends a letter. Make address changes by logging on to Benefits.Ohio.gov or by calling 1-800-324-8680. Help is available Monday through Friday, 8 a.m.-8 p.m. and Saturday 8 a.m.-5 p.m. ET.

Check their mail and respond to requests for information from their CDJFS. Any member who gets a letter stating that it is time to renew, or that their CDJFS needs more information, should respond right away. The CDJFS needs to hear from members to review their Medicaid eligibility. Members who do not respond to renewal letters or requests for information risk losing their coverage, even if they are eligible.

Members can manage their Medicaid account, complete renewals, upload documents, and find out the status of their coverage by logging into their Ohio Benefits Self-Service Portal account at ssp.benefits.ohio.gov. They can find out more information by calling 1-800-324-8680 or by contacting their local CDJFS. Ohio Medicaid members can find their CDJFS by selecting their county from the dropdown at medicaid.ohio.gov.

Subjects: Updated Estimates for Property Taxes, Draft Letter of Agreement for Services of Fiscal Officer for MCJDC, Financial Reports for Agencies and Custodial Funds, House Bill 1 Introduced to Lower State Income Tax Rates and Change Property Tax Law

Updated Estimates for Property Taxes

This week, we updated estimates for property taxes. Amended certificates of official resources and balances were updated for each impacted fund with a newly designed process for efficiency. For the general fund, **the new estimate for property taxes is \$13.1 M** (based on Budget Commission approved numbers), up from the original estimate of \$11.8 M (where the increase was estimated last year as an average of previous triennial updates) and the previous year actual amount of \$10.8 M. Other related estimates were updated. **The current estimate of the general fund is now \$58.1M.** Other estimates will be reviewed quarterly, in general.

Draft Letter of Agreement for Services of Fiscal Officer for MCJDC

Following the discussion from February 14 where the MCJDC resolution of the Joint Board of County Commissioners was reviewed, I prepared a draft memo to serve as documentation of unanimous agreement of the County Auditors of the district regarding Fairfield County continuing to serve in the fiscal officer role through December 31, 2026. **The draft memo is available for review once the MCJDC resolution is ready for additional review.**

Financial Reports for Agencies and Custodial Funds

All financial reports for agencies and custodial funds have been filed with the Auditor of State, ahead of the deadlines. Thanks to the Financial Systems team for their continuous improvement, especially with job shadowing and training, which has improved multiple processes.

House Bill 1 Introduced to Lower State Income Tax Rates and Change Property Tax Law

Here is a link to House Bill 1:

https://search-prod.lis.state.oh.us/solarapi/v1/general_assembly_135/bills/hb1/IN/00/hb1_00_IN?format=pdf

House Bill 1 would create a flat state income tax rate of 2.75%, though Ohioans making less than \$26,050 per year would continue to pay no income tax. Currently, state income tax rates range from 2.765% on people making somewhere between \$26,051 and \$46,100 to 3.99% for people making more than \$115,300.

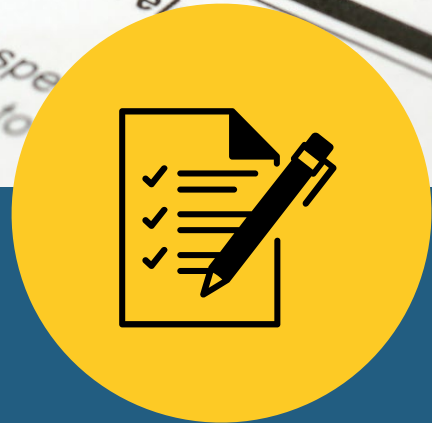

House Bill 1 would also make changes to property tax law, adjusting assessed valuation to a calculated percentage (as opposed to the current 35%) of appraised or market value so that increases in property taxes would be generally capped to not exceed 10%. The goal is to provide property tax relief in future years.

There are other adjustments in the bill. As with any new piece of proposed legislation, there is a lot of analysis expected after its introduction.

Narrative

Please see the Request For Proposal (RFP) for this grant program for guidance on completing this section. The RFP can be found at www.ocjs.ohio.gov

Narrative: Request for funding to implement a mediation program to address existing backlog of post decree custody litigation, to provide mediation as an alternative to litigation for all domestic relations cases and to reduce overall docket congestion.

Problem: Change of custody cases pending beyond the time guidelines increased significantly during the pandemic. Because new cases are filed daily, the backlog of cases pending beyond the time guidelines has caused docket delays for all filings.

Statistics: December 31, 2019: 174 change of custody cases were pending; 29 were beyond guidelines (16.67%)
February 28, 2021: 211 change of custody cases were pending; 71 were beyond guidelines (33.6%)

Proposal: Implementation of mediation services through two specific programs:

1. Periodic Settlement Weeks (3) where cases are referred in mass to mediation during a specified week, dockets are cleared to ensure judicial availability to expedite approval of agreements, and mediation is funded for a specific period of time to encourage litigant participation, bar acceptance of the new program, and community awareness of Alternative Dispute Resolution as an alternative to litigation.

2. Monthly mediation days where cases can be referred to a court funded mediator for either evaluation for referral or for court funded mediation services.

Achievement: Activities proposed can be achieved by the court funding mediation services for a period of time by hiring qualified private mediators approved by the Court to provide mediation services on a limited basis. Cases will be screened by court personnel for appropriateness for mediation. Outcome reports will be required from the mediators. In cases which are pending beyond the time guidelines, mediation may be ordered rather than voluntary. If full agreement is not reached, partial agreements will also serve to reduce docket backlog. Monthly mediation days would involve engaging a private mediator to be available for a day per month for case referrals. The goal is to introduce and implement mediation as available and acceptable as an alternative to litigation.

Organization and Staff Responsible: The judge and magistrates will refer appropriate cases to mediation and will review and approve applications from mediators for approval. The magistrates and judicial assistants will organize the Settlement Week and the scheduling of mediations.

Community Engagement: Mediation as an alternative dispute resolution tool will be introduced to the community without the cost associated being a barrier to attempting mediation. Attorneys and the local bar will be engaged in the mediation process. The community as a whole will benefit from the reduction in litigation delays in the court.

Mediation – evidence-based benefits: The Supreme Court of Ohio explored Court-Connected Mediation in Ohio, including the use of Settlement Weeks, implementing mediation for parenting issues and divorce mediation. See Court-Connected Mediation in Ohio, Supreme Court of Ohio, www.supremecourt.ohio.gov/JCS/disputeResolution/resources/mediation.asp.

Project Objectives: To reduce overage rates of change of custody cases, to introduce mediation as an ADR for families involved in domestic relations cases, and to reduce overall docket backlog created by the pandemic.

Performance Indicators: The reduction in change of custody cases pending past guidelines and the number of cases settled either in whole or in part through the mediation process. Currently, no cases are being sent to mediation unless the parties voluntarily engage a private mediator. Any increase in this number will not only benefit the courts, but also benefit the families involved.

Budget:

Settlement Weeks (goal of 60 cases)

2 hours of court funded mediation @ \$150/hour per case - \$300.00/case
(hourly rate derived from agreed upon reduced rate for mediators
for Settlement Week services in nearby counties)

Narrative

60 cases x \$300.00 per case - \$18,000

Ongoing Mediation Services (goal of one day per month)

8 hours of court funded mediation per month @ \$150/hour - \$1,200.00/mo.

24 months of court funded mediation services - \$28,800.00

Summary of Budget Request:

Settlement Week Cost \$18,000

Monthly Mediation Day Cost \$28,800

Total Grant Funds Sought \$46,800

Capital Program Payments

Notice to ODOT's LPA Subrecipients and External Auditors – November 15, 2021

This payments report cannot be used as the sole source of information for determining Federal funds expenditures to be reported on the LPA's annual Schedule of Expenditures of Federal Awards (SEFA). The LPA and their external auditors are directed to follow the LPA SEFA Reporting Guidance.

This ODOT guidance document recommends procedures for the LPA to follow to ensure accurate SEFA reporting to avoid potential audit findings. This CMS payments report was originally designed for contractors to obtain payment verification. ODOT has determined that the source data is sufficient for that purpose; however, since the payments data in this report does not distinguish Federal, state, or local funds, it cannot be used as a stand-alone source for verification of SEFA data. Additionally, this payments report reflects all of ODOT's expenditures on the project and does not identify only those Federal expenditures to be reported by the LPA.

Furthermore, this ODOT payments report does not reflect any project payments made by the LPA that have not yet been reimbursed by ODOT.

For LPA's preparing a cash basis SEFA, the LPA can use the Warrant Date on this ODOT payments report to assign the ODOT payments to contractors to a fiscal year for the LPA's SEFA reporting. However, if ODOT is issuing a reimbursement payment to the LPA, then the LPA's check dates would be used to assign those payments to a fiscal year.

The LPA's copies of invoices submitted to ODOT and the ODOT-LPA Project Agreement should provide support for the Federal share of the project costs.

Most of ODOT's subrecipients of Federal Awards are subject to compliance with [Title 2 CFR Part 200 Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards](#). Accordingly, the subrecipient is responsible for maintaining accurate financial records to demonstrate compliance with the requirements documented in [§ 200.302 Financial management](#).

The subrecipient's fiscal procedures and financial records must provide for tracking the project specific expenditure of Federal funds by the subrecipient. The subrecipient's financial records must accurately report, in the proper fiscal year, the Federal funds the subrecipient has expended; including those project expenditures which have not yet been reimbursed by ODOT and the Federal funds payments issued to contractors by ODOT as requested by the LPA.

The ODOT LPA SEFA Reporting Guidance and an Excel template for tracking of Federal funds expenditures is available at: <https://www.transportation.ohio.gov/wps/portal/gov/odot/programs/external-audits/audit-lpa/guidance-lpa-sefa>

Please contact DOTLPAQuestions@dot.ohio.gov with any questions regarding this notice.

BY PROCEEDING TO THE REPORT ON NEXT PAGE, YOU ARE ACKNOWLEDGING THIS DISCLAIMER.
