

Regular Meeting #46 - 2020
Fairfield County Commissioners' Office
October 20, 2020

Review

The Commissioners met at 9:01 a.m. to review legal issues and pending or future action items and correspondence. Commissioner Davis called the meeting to order with the following Commissioners present: Steve Davis, Jeff Fix, and Dave Levacy. Also present were Carri Brown, Rachel Elsea, Jon Kochis, Tom Lininger, Joshua Horacek, and Rick Szabrak. Attending virtually were Amy Brown-Thompson, David Miller, Dennis Keller, Jeff Barron, Lori Hampshire, Lisa McKenzie, Tony Vogel, Chris Wagner, Stacey Hicks, Shannon Carter, Jim Bahnsen, Jeff Porter, Aunie Cordle, Dr. Schultz, and Dave Burgei.

- Welcome

Commissioner Davis welcomed everyone to the meeting.

- COVID-19 Update

Mr. Davis stated he received communication from Lt. Gov. Husted warning everyone to be prepared for some tough weeks and months ahead.

Jon Kochis, EMA Director, provided an update on the COVID-19 responses.

The weekend numbers were higher than expected. Mr. Kochis was expecting Fairfield County to be in the red last week and was surprised that the county was not. This is a very unpredictable time. There is a current outbreak in a nursing home.

Mr. Levacy reported on his call with Lt. Gov. Husted and the surge they are seeing across the state.

Mr. Fix asked if the next 6-12 weeks would be the worst.

Mr. Kochis replied as people stay inside more often the virus could spread more.

The safeguarding procedures continue to be incredibly important. This includes physical distancing, wearing masks, and washing hands.

Mr. Hanna stated that the numbers were indeed high, and the most recent report included a three-day count instead of a normal two-day count. But the count was still higher than previously experienced. Regarding the next few weeks, they hope to be wrong, but it seems as though the stage for the pandemic is ripe to become worse weeks. He encouraged everyone to continue proper social distancing measures.

He asked the Commissioners to continue to push masks, social distancing, and staying home when you are ill.

Mr. Fix asked if there was an update on vaccination.

Mr. Hanna replied there are four vaccines in testing phases with three of the four requiring two doses. He does not know anything other than what everyone is hearing in the news.

Dr. Brown reported that many people do not understand how getting a flu shot now is helpful to fighting COVID-19. It keeps people healthier with stronger immunity, and it helps to conserve ICU beds for those who have the COVID-19 virus. Dr. Brown asked about what could be done to encourage people to get their shots.

Mr. Hanna reported the flu shot clinic would be tomorrow from 12p-7p and would be free.

Mr. Kochis added that the schools will be receiving another PPE shipment in the next week.

- Legal Update

Mr. Horacek updated that the reply briefs for the Franklin case were filed yesterday and the next step is waiting on the decision from the judge. He reported there was nothing surprising in the briefs filed.

Fairfield County Commissioners' Office
October 20, 2020**

MCJDC	158,399.67	Public Safety Payroll Support

total outstanding c/s with non-profit organizations	55,850.00	

In queue, after reconciliation from all subdivisions, there is approximately \$807 K of expenses that are eligible for CARES Act uses. In queue, in this context means they exceed are allocation in full.

Amounts include EMA expenses for the latter part of the year, administrative leave costs, Stafford Act matches, and some teleworking equipment expenses. These expenditures would be closed by the end of the year. However, there is about \$431K of equipment and testing for the hospital in queue which might not be deliverable by December 30, 2020.

We will continue to monitor and adjust.

Conclusion

The current environment is complex and changing. The pandemic itself contributes to a high degree of uncertainty. In addition, multiple rules surrounding funding sources to support the efforts to address the pandemic are being revised and clarified often. The approach the county has taken for the CARES Act resources complies with written guidance of the US Treasury, the legal opinions of the County Prosecutor, and guidance from the state. The Auditor of State has indicated a desire to use maximum flexibility in their audits. The approach is documented, has been developed with transparency, and has considered identified needs.

As in the past, we will purchase PPE as needed and will seek reimbursement as possible.

A small business grant program (to potentially supplement the new loan programs) can be approved from general fund monies, like the training grants now in place.

Goods and services need to be received by December 30, 2020.

If the federal government were to make changes to its requirements, we would adjust, as necessary.

We have encouraged all stakeholders to stay in touch regarding identified needs and ideas about CARES Act or related resources during the emergency period.

**Regular Meeting #46 - 2020
Fairfield County Commissioners' Office
October 20, 2020**

We will continue to connect with Emergency Management, the Board of Health, the County Sheriff, and other community stakeholders. The plan itself needs to be adapted to meet new needs as they are identified. The plan can also be adapted if there is additional information or guidance received.

Email questions or ideas to carri.brown@fairfieldcountyohio.gov.

Mr. Davis stated they will know in the coming days if there will be another round of federal help.

Mr. Fix asked if there was an uptick in food bank usage or an increase in homeless people. He asked how that is measured.

Dr. Brown replied she reached out to Community Action to see what they are seeing. They feel good where they are now and reported that the TANF dollars used with the Prevention, Retention, and Contingency program must have been helpful.

Dr. Brown also highlighted the services our partner, Southeastern Ohio Legal Services, is providing to support landlords and renters facing eviction processes, to assist those who need help with tax filings, and to help those who have questions about unemployment claims or appeals.

- CARES Act related expenditures (and adjustments) for eligible expenses; and
- The payment of bills.

In queue, there were financial and contracting resolutions at various stages of progress.

c. Administrative Approvals, Program, & Budget Update

Administrative Approvals and Update

The review packet contained a list of administrative approvals. The FMC subgrants have been approved as expected.

On October 14th, Dr. Brown participated in a webinar with MORPC. Her topic was about "connecting the unconnected" and positive communications. It was well received.

Also, on October 16th, Dr. Brown met virtually with Palmer Energy representatives. We are on track with our RFP process for the purchase of electricity. Seven counties were included in the RFP process which allows us to have some increased buying power. The Palmer subject matter experts propose capacity pass-through pricing. There will be only one bill, consolidating generation and capacity costs.

The proposed contract length was adjusted to a 24-month term beginning with the billing of June 2021 through May 2023. This is because we are participating in the solar RFP through CCAO. That timeframe aligns well with that project according to Palmer.

Two vendor contracts (with Dynegy and Engie Resources) will now be under review (for approval to form) prior to refreshing the pricing structures for the contract execution. Annual savings are projected to be about \$34K across all funds, with capacity costs not increasing tremendously; participation in the program helps us to control costs as much as possible.

FYI: In between budget hearings on Thursday, we will have some board appointments and re-appointments. Thanks to Rachel Elsea for organizing these actions. We may also have a few other resolutions, such as for contracts, if they are ready.

Budget Update

There are budget hearings scheduled for Thursday this week for these departments:

Facilities, Sheriff, Dog Shelter, EMA, RPC, Recorder, Prosecutor, OSU Extension (contracted services), DR Court, and Juvenile/Probate Court.

Mr. Davis stated he remains very cautious of the coming months and believes at some point in his lifetime trillions and trillions will show up in the market in a negative way. For this reason, he favors ensuring the 2021 budgeted expenditures at an approximate 95% level do not exceed a realistic view of revenues for 2021.

d. BRAVOS

BRAVO for the tremendous cooperation and planning for the budget hearings this year, thus far!
