FOR FREE DISTRIBUTION ONLY

To: _____

FAIRFIELD COUNTY ENGINEER'S OFFICE
3026 WEST FAIR AVENUE
LANCASTER, OHIO 43130

**Photos: Flight of the Hawk Sculpture Park** features a steel sculpture of a red-tailed hawk made of more than 3000 pieces, weighing more than 2,500 pounds and having a wingspan of more than 14 feet. The hawk appears to be landing on a nest 40 feet in the air. Additional life-size Ohio woodland animals have been added with more to be installed as commissions become available. (www.fairfieldcountyparks.org)
**Mount Pleasant, located in Rising Park in Lancaster,** also known as "Standing Stone" by early Native Americans. This sandstone bluff rises abruptly nearly 300 feet above the surrounding plain. A two acre flat top area that affords a panoramic view of the surrounding area may be reached by a foot path in the park.
**Rock Mill and Rock Mill Bridge;** originally built in 1901, the queenspost truss covered bridge at the upper falls of the Hocking River, overlooks Ohio's oldest and largest gristmill, Rock Mill. Six stories, with two below grade level, the mill is currently being restored by the Fairfield County Historical Park District in Bloom Township. (www.fairfieldcountyparks.org)
**Gledhill Road Machinery Company's, 1947 Blue Bird Road Shaper,** is dwarfed in this photo by the Champion Road Machinery Company's 1981 model 715 road grader in the background. The Road Shaper can be seen at the Fairfield County Engineer's Facility, 3026 West Fair Avenue, Lancaster, Ohio 43130

## PICKAWAY COUNTY

## STOUTSVILLE
1 inch = 1,320 feet
