Community Announcement

Fairfield County Auditor begins county-wide property reappraisal

Fairfield, OH, August 7, 2017: During the next several months, area residents may notice people with cameras in their neighborhoods. They are working for Fairfield County Auditor, Jon A. Slater, Jr., who is in the beginning of a process for a state mandated reappraisal of all property in the county for completion in Tax Year 2019. The photographers will be clearly identified in color coded vests with “Fairfield County Auditor” across the front and back of the vests. The photographer’s vehicles are clearly identified with signs stating “County Appraiser”. The vehicles and photographers will be registered with the local police and county sheriff.

Residential and Agricultural property owners with dwellings on their property will receive a letter in the mail prior to a photography team showing up. The second page of that letter requests information about their home. Please review that information for accuracy and mail back to the Auditor’s Office.

The photographs being taken are for use by property appraisers for verifying basic exterior data in conjunction with Fairfield County’s 2019 property reappraisal.

If you have any questions or concerns, please call the Fairfield County Auditor’s Office at 740-652-7020.
