Introduction to the Strategic Plan

This introductory section of the Strategic Plan includes a summary about strategic planning, the mission of Fairfield County Auditor's Office, and strengths, weaknesses, opportunities, and threats.

What is Strategic Planning?

Strategic planning is an organizational management activity that is used to:

- set priorities,
- focus energy and resources,
- strengthen operations,
- ensure employees and stakeholders are working toward common goals,
- establish agreement around intended outcomes and results, and
- assess and adjust the organization's direction in response to a changing environment.

We believe that strategic planning is a worthy, disciplined effort that produces fundamental decisions and actions to shape and guide our organization, who we are, who we serve, what we do, and why we do it – all with a focus on the future. It is an activity that is both prescribed and organic.

A strategic plan is a document used to communicate goals and objectives typically for a mid-term period of five years. It is a living document and is expected to be updated and reviewed regularly. The strategic planning process allows an organization to gaze beyond a budget horizon, and it allows leaders to consider current issues in the context of the relatively near future; to anticipate challenges ahead; and to decide on how to deal with challenges.

Rather than a process apart from everyday functions of the organization, the mid-range nature of strategic planning allows the organization to bring alignment within a set of goals. This plan is through 2030. It was first documented in 2022 and is updated regularly.

A strategic plan is a flexible, living document that should be adapted to internal and external changes inherent in a complex environment with multiple stakeholders and demands. A strategic plan is a helpful tool for the organization to reach its *vision*. The vision is to secure, attractive residential and commercial neighborhoods where people unite to form a caring, learning, participating, sustainable community where each person is important.

Why do we exist? We provide essential financial reporting and data management services to improve accountability, trustworthiness, and credibility in the private and public sectors.

Mission of the Fairfield County Auditor's Office

The mission of the County Auditor's Office is to perform statutory duties of the County Auditor with excellence, integrity, and innovation while embracing outstanding internal and external customer service to continuously improve county government.

We serve.connect.protect as part of Fairfield County's identity, and our brand is excellence.

We work to ensure high quality services at exceptional value to taxpayers. We foster economic and financial sustainability, and we enhance the county's reputation as a high-performing, learning, and caring organization. Team mission statements are aligned with the overall mission.

Values

- accountability
- accessibility *for all*
- adaptability / flexibility / change management
- subject matter expertise
- kindness - courtesy
- empathy
- consistency
- compliance
- attention to detail
- capability
- collaboration
- continuous improvement
- customer-focus
- efficiency
- effectiveness
- ethical actions
- excellence
- expertise
- fairness
- high-performance
- innovation
- servant leadership
- ownership of process or service
- responsiveness
- quality
- service orientation – positive customer experience
- transparency
- respect, civility
- work-life balance
- strategic
- personal service – grass roots orientation
- empowerment

We value professionalism (taking pride in our work, communicating effectively, projecting positivity, respecting one another in the workplace, delivering service at the highest standards, and maintaining a strong, skilled organizational knowledge base). We value the delivery of cost-effective services (keeping costs down for taxpayers), as well as honoring tradition and history of Fairfield County. Teamwork, collaboration, cooperation, and acknowledging the ideas of others are commonly noted values. Customer service, accountability, and integrity are strong core values, as well. For example, there are standards for customer services responses.

We have discussed the importance of organization health and understanding our **intention** (we want to bolster a brand of excellence); our **attention** (attention is the currency of our leadership, and we will pay attention to what matters most); and our **attitude** (we have a growth mindset and embrace positive communications).

SWOT Analysis for Insight to a Strategic Plan

Prior to the annual retreats, employees participated in a SWOT analysis. The analysis is an ongoing effort. During the retreats, the SWOT analysis was updated. SWOT stands for:

- **S** - Strengths
- **W** - Weaknesses
- **O** - Opportunities
- **T** – Threats

A SWOT analysis helps to create an ultimate to-do list, and it forces you to think about the future. A SWOT analysis lists good and bad things, both from an internal and external viewpoint.

<i>SWOT Factors</i>	<i>Positive</i>	<i>Negative</i>
Internal	Strengths	Weaknesses
External	Opportunities	Threats

Strengths and weaknesses are internal factors, while opportunities and threats are external factors. Strengths and weaknesses mostly focus on the present, while opportunities and threats mostly focus on the future. A SWOT analysis was part of interviews of employees and within multiple meetings of the full staff. Employees were requested to think about the Auditor's Office and to think of the entirety of county government. With a SWOT analysis, there are no wrong answers. The expertise and experience of the employees were trusted, and their perspectives were valued.

<i>Summary of SWOT Analysis</i>	
<p>Strengths</p> <ul style="list-style-type: none"> • County partnerships • Understanding and use of stakeholder theory • Positive communication • Technical knowledge & competencies • Dedicated leadership • Passionate team members • Purpose-filled work • Connections with county human infrastructure • Structure that brings the ability to tackle problems with multiple partners • Employees who want to make a difference • Outcomes of work are positive, visible, and measurable • Positive relationships with other sectors and multiple entities • Good reputation - with results • Successful audits • GIS technology • Physical space is exceptional • Employees have knowledge of processes and requirements • Strong leadership • Training opportunities • Organizational health, civility • Good organizational structure for problem solving • Updated processes and technological tools • Strong ERP and EAT systems with good staff connections and interfaces and work groups • Knowledgeable and independent weights and measures inspectors 	<p>Weaknesses</p> <ul style="list-style-type: none"> • Technology & processes need improved in an ongoing way • Services are not as well known in the community as they could be • Financial officers are ready for additional training and understanding – some departments need support more than others • Formal processes can be improved • True collaboration is very hard work, involving multiple stakeholders • Processes are complex • Employees feel an increasing amount of stress • There are market pressures that are burdensome to some property owners, adding complexity to required communications about property taxes • Long-term planning requires succession planning and there needs to be more thinking about this topic

Opportunities	Threats
<ul style="list-style-type: none"> • Potential to engage other entities in strategic reviews; potential to engage more associations and legislators • Growing county offers stability as well as pressures for more services • Relatively stable economy with a healthy financial position of the county • Ongoing reviews of processes will allow for improvements and new technologies, such as with DocLink and the lot split application • Improvements in communications and continued increased use of social media platforms • Additional training is welcome - internally and externally; requirements for training of risk management and fraud, ethics, and unlawful harassment have been met with positivity • Communication of BOR processes and leadership on a statewide basis to help with understanding about BOR processes • Updates for manuals and desk aids, especially for activities within settlements and administration • New property tax exemption opportunities for pre-residential properties • Recommendations for the legislators to support property tax relief 	<ul style="list-style-type: none"> • Uncertainty in the economy, especially mid-long term • Increasing costs of technology and supply chain disruptions • Increasing costs of critical contracted services related to technology • Cybersecurity threats • Public misinformation and misunderstandings, particularly about BOR or appraisal processes • Public discontent about increases in valuations arising from market activity (with no impactful legislative changes in place at the state level to truly ease the burden of property taxes) • Labor shortage (internal and external aspects) • Exponentially increasing need for new technological competencies • Complexities of artificial intelligence initiatives • Increased fraud in all sectors

Additional Observations

We want to continue to reward customer service skills (return phone calls within one day; return emails within one day, return correspondence within five days) to increase service orientation and support employees' sense of urgency.

We have ***aligned position descriptions with priorities***. We will continue to provide training for leaders and for all employees, ***especially leadership training***.

Recruitment, retention, and recognition activities are meaningful. Supervisors will continue to develop ***coaching and mentoring opportunities***.

We will ***continue to seek input and feedback*** from our stakeholders.

Appraisal Updates

The Fairfield County Auditor's Office completed a ***triennial update*** in 2022. This update was a review of valid sales that occurred over the prior three years. The state issued a recommendation based on the relationship between value and sales price. The County Auditor issued its analysis. By reviewing sales and market trends, property values were adjusted incrementally creating a more predictable tax base (and a less significant change at the sexennial update). Adjustments always vary between neighborhoods as they are based on market conditions.

The Fairfield County Auditor's Office performed a county wide reappraisal in 2025. This is known as a ***sexennial update***. This reappraisal involves physically viewing all properties and updating the value attributes, such as size, condition, construction quality, desirability, and overall utility. Along with physically reviewing properties, appraisers will conduct a thorough review of the prior three years of sales including neighborhood analyses. Market trends provide the framework for updated appraisals. Adjustments vary between neighborhoods based on market conditions.

The Board of Revision process has continued to improve, and there are opportunities to improve communication and understanding of the ***appraisal and review process***. Legislation impacts the BOR processes. The rules and regulations have been updated for the BOR reorganizational meeting in 2026.

The next triennial update is scheduled for 2028; however, it could be altered to 2029 based on changes the state of Ohio may make. In addition, property tax relief reform (introduced in 2025) will alter the effect of appraisal updates on taxation, likely limiting the increases in taxation to inflation, but for voted changes.

Communications

For external communications, we have:

- Created fact sheets for mailings, newsletters, media releases, and other distribution; many of these fact sheets have been replicated for statewide use, especially for property tax relief reform
- Created video presentations
- Added more information to the “postcards” about reappraisals
- ***Improved the use of social media***
- Conducted presentations for the Bar, Realtors, and Elected Officials
- Conducted a record number of informal reviews
- Engaged professional services for search engine optimization and social media marketing
- Created videos about how the values effect taxes that are assessed

For internal communications, we have:

- Focused on ***payroll coordination*** and improvements unique for each department, developing new codes and processes as needed
- Increased integration with departments, including ERP and EAT ***workgroups*** that engage stakeholders
- Engaged ***townships, municipalities and school districts*** as needed to be of support to one another
- Improved tax incentive review ***council*** documentation
- Improved efficiency of ***Budget Commission operations***

We want to continue these communication efforts. We have a rapid response plan and a communications strategic plan, as well.

Strategic Themes

During the annual retreat, we examine the strategic plan and asked:

1. Do the themes make sense?
2. Is there a theme missing in this initial analysis?
3. Do the action steps relate to the themes?
4. What action steps should be added?

In addition, the team asked significant questions:

- What can we do together to improve our organizational culture and organizational health?
- How do we continue to live out our values?
- *How do our discussions on ethical and inclusive leadership connect to your personal WHY?*

It is expected that there will be ongoing updates to the action steps, with leaders and small groups developing goals. The team evaluates aspirations and outcomes or results on a weekly basis. The strategic themes evolving from the process were:

Strategic Themes

- 1. Provide Supervisory Support & Coaching Opportunities for Team Members**
- 2. Update Financial and REA Processes to Add Value**
- 3. Focus on Strengths & Customer Service**
- 4. Improve Communication and Outreach**
- 5. Improve Use of Technology and Records Management Processes**

Updates to the Strategic Plan

The Auditor's Office is dedicated to obtaining additional input and feedback. The strategic plan and its themes were initially discussed in public meeting in January 2022 and have been updated regularly, as well. There are regular updates during public meetings. The strategic plan is a working document that is *posted on the County Auditor's website and within social media.*

Team Purpose Statements

Payroll Systems Management

As a centralized point for responsive information about payroll and related Auditor's Office systems, the purpose of Payroll Systems Management is to deliver exceptional customer service by ensuring employees are paid according to approved payroll schedules in compliance with regulations and policy while sustaining effective systems, data, records, reports, and relationships.

Financial Systems/Annual Comprehensive Financial Report Management

The purpose of the Financial Systems/ACFR Management team is to provide superior customer service to the county and vendors by preparing award-winning financial reports and disbursing funds in an accurate, timely, reliable, and technologically proficient manner while complying with regulations and policy.

Settlements and Administration

The Settlements and Administration team calculates settlements for public entities; organizes data for tax exemptions, special assessments, levies, and Budget Commission processes; issues multiple licenses and homestead exemptions; and provides courteous administrative support with purpose, integrity, gratitude, and efficiency.

Weights and Measures Inspection

Connecting with multiple departments and businesses, Weights and Measures provides equity in the marketplace by testing and inspecting weighing and measuring devices and ensuring appropriate commercial practices are in place.

Geographical Information System

With efficiency and accuracy, GIS manages and organizes spatial and tabular datasets while developing accessible applications for the distribution, utilization, and integration of GIS technology for public entities and citizens of Fairfield County.

Map Room Management

Coordinating with the County Engineer and other leaders, the Map Room team reviews and researches surveys, deeds, and legal descriptions of property for compliance with established conveyance standards while maintaining more than 1,200 tax maps and 71,600 parcel records.

Board of Revision Administration

With expertise in codified processes, the BOR hears complaints on the market value of property and adjusts values as of the tax lien date when justified by evidence presented during the hearings.

Real Estate Management

With fairness and equity, the Real Estate team transfers and appraises real property and also administers state programs for owners of agricultural properties to receive tax savings.

Evaluation of the Strategic Plan

An initial plan was presented for input and feedback in January 2022. The plan was provided to stakeholders in 2022, and in 2023, once updated, it was provided again. It has been provided to major stakeholders at least quarterly since that time. Ongoing updates at each roundtable meeting and at various other meetings were conducted. The themes will continue to be communicated with all employees and stakeholders.

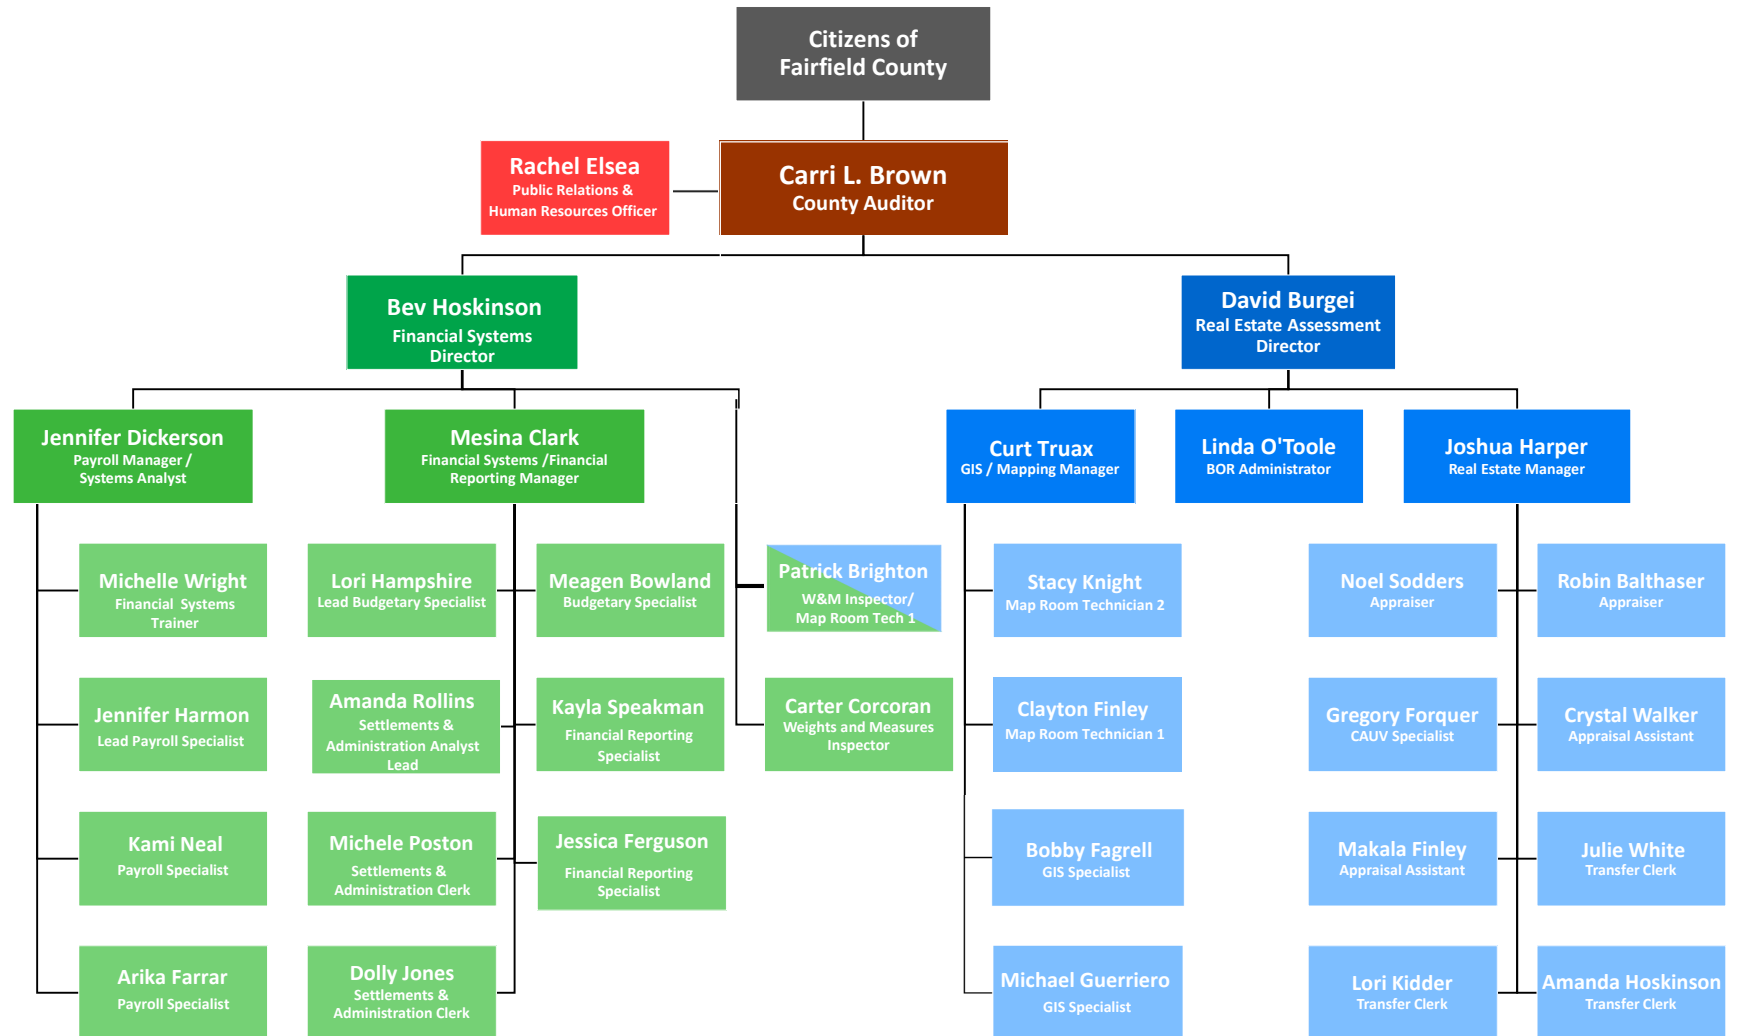

In addition, feedback and input was sought from multiple stakeholders by email and in person. There is an expectation of ongoing ways to obtain input and feedback. The plan is on the website and is announced in social media platforms

A strategic plan is documented for guidance; it is a living document. Metrics will be reviewed throughout the plan period to help monitor progress. A “year in review” document was created in 2022 and has been updated annually.

If there are any questions or comments about the strategic plan, please contact Carri Brown, carri.brown@fairfieldcountyohio.gov or (740) 652-7096.
