General Instructions and Information

Owner Occupancy Credit: The owner occupancy credit is a 2 1/2% reduction in the taxes charged by qualified levies. The reduction is applied against real property taxes and manufactured home taxes on any manufactured or mobile home on which a manufactured home tax is assessed. A "homestead" is a dwelling or a manufactured or mobile home taxed as real property that is owned and occupied as a home. See R.C. 323.151(A)(1).

Qualifications: To receive the owner occupancy credit, you must own and occupy your home as your principal place of residence (domicile) on Jan. 1 of the year you file for the reduction. A homeowner and spouse are entitled to this owner occupancy credit on only one home in Ohio, unless they can establish that they are domiciled separately. A person only has one principal place of residence. Your principal place of residence determines, among other things, where you are registered to vote and where you declare residency for income tax purposes.

Current Application: If you are applying for the owner occupancy credit for the first time this year, check the box for **Application for This Year**.

Late Application: If you also qualified for the owner occupancy credit for last year, but did not file an application last year, you may file a **Late Application** by checking the late application box on the front of this form.

Instructions: The lines following **Parcel Number** and **Tax Year** are for the parcel number of your home and for the tax year in which your application is applicable. If the parcel number is not already completed, this can be found on your tax bill. If you cannot locate the parcel number, contact your county auditor. In the line following **Name of Owner(s) of the Home**, list the names of all the owners. If all the names are not on your tax bill, list the names as they appear on the deed to your home.
