Fairfield County Auditor Draws Awareness to On-line Property Tax Estimator

Lancaster, Ohio – The Fairfield County Auditor’s Office is pleased to announce the availability of a property tax estimator tool on the Auditor’s Real Estate website. A tutorial on how to use the online tool is attached.

County Auditor Carri Brown stated, “If a citizen would like to estimate the amount of tax associated with a home in a specific taxing district, this tool can be helpful. The tool uses 2021 tax rates, and the citizen can select a specific market value. We are getting good feedback about the tool from people who are considering buying a home or making significant improvements.”

The property tax estimator tool allows interested individuals to input the tax district, market value, property classification, and any credits that would apply. The tool will calculate the estimated property tax in selected district. Estimates are based on current tax levy data.

For more information or questions regarding the property tax estimator, please contact the County Auditor’s Office at (740) 652-7020.
