2. Chairman's Report  
Kent Huston welcomed everyone.
3. ODOT Grant Application  
James Mako made comment that after some initial work on the ODOT Active Transportation grant application, we did not meet the criteria for funding. Mr. Mako then introduced Mike Borger and Maria Schaper with MORPC to get their ideas on providing guidance on a plan update.
4. MORPC Presentation  
Maria Schaper and Mike Borger introduced themselves. Maria mentioned that CORPO will be updating their long range transportation plan. As part of this update, active transportation will be a part of this effort. One component of this will look at the data inventory of the 7 county CORPO region. They will look at the key "gaps" in the active transportation inventory. They will be looking at regional connections in the plan. The plan update will begin soon and will last about a year. Mr. Borger thinks it is perfect timing for Fairfield County to do an update to their active transportation plan. CORPO does have dedicated funds available that could be applied to things which come out of our update. The group had some general questions to MORPC regarding an update to the plan. After some discussion it was agreed that MORPC would send RPC a scope of work for the update to the Active Transportation plan.
