ITEM 4. ZONING AMENDMENT

James Mako presented the following report:
ITEM 4a. APPLICANT: Nick Babamov

LOCATION & DESCRIPTION: The property proposed to be rezoned is located on the west side of Old Columbus Road (parcel # 0130053780). The property is 1.13 acres in size.

EXISTING ZONING: The property at Old Columbus Road is zoned R-1 (Rural Residential District). The R-1 District is established to provide areas for the continuance of agriculture as well as large lot single family residential development reflecting very low density and a rural lifestyle. Such development may occur as a transitional area between agricultural and urban areas, and is typically not served by public water or sewer systems.

EXISTING LAND USE: Vacant

PROPOSED REZONING: R-3 (Urban Density Residential District) The R-3 District is established to accommodate a variety of housing types suited to the various life styles of individuals and families, including single and multiple-family residences. The objective is to provide for a diversity of housing opportunity and choice within Greenfield Township. As a result of the higher residential densities, the R-3 District is intended to be used in areas served by public water and sewer.

RPC STAFF RECOMMENDATION:

RPC Staff recommends disapproval for the following reasons:

1. The proposed zoning classification is not in line with the Fairfield County Development Strategy and Land Use Plan and the U.S. 33 Corridor Plan. Both of these plans indicate that there are critical resources on this land, which is not compatible with urban density residential zoning classification.

2. There are several single family homes directly across the street from this property. RPC staff is concerned that the proposed multi-family housing would not blend with the existing character of the area.

3. Although the Fairfield County Engineer’s office has identified no sight distance issues with this proposed development, RPC staff is concerned with the impact that high density residential uses will have on the existing road network.
APPLICANT: Nick Babamov - Continued

4. The Soil and Water Conservation District has raised several concerns about the proposed development of this site. These include the slope found on the property, storm water detention and the possible impact on the wetlands in the area.

5. In 1999, this property was part of a larger rezoning request to B-1 Business District. The RPC recommended disapproval of this previous rezoning request. The RPC based its recommendation upon concerns with developing within the floodplain and the existing wetlands on this site. There were also concerns with access to US 33 in the future.

A motion was made by Bill Yaple to approve the recommendation of the RPC staff. Joel Denny seconded the motion. Jay Zollars, representing the applicant, was present at the meeting and asked to speak. He discussed the properties in the area and said that, in his opinion, there is no clear definition of what this area is zoned. He also stated that Geotech has done a preliminary study showing that there would be no problem with building on this property. Mr. Zollars also stated that the applicant is willing to follow all the guidelines regarding the leach and runoff standards. Nick Babamov, the applicant, had some pictures of what could be built on the property with the slope which he felt would not cause an impact on the land. He distributed the pictures to the RPC members for their review. Mr. Babamov also stated that, if the rezoning is approved, they are planning to build an eight unit building on the property. After discussion, a vote was taken and the motion passed with Larry Joos abstaining.

Holly Mattei presented the following report:

**ITEM 5. CONTRACT FOR THE DEVELOPMENT OF A TARGET AREA PLAN FOR THE FAIRFIELD COUNTY LAND REUTILIZATION CORPORATION**
